GAME FLOW

1) SELECT CABBIE

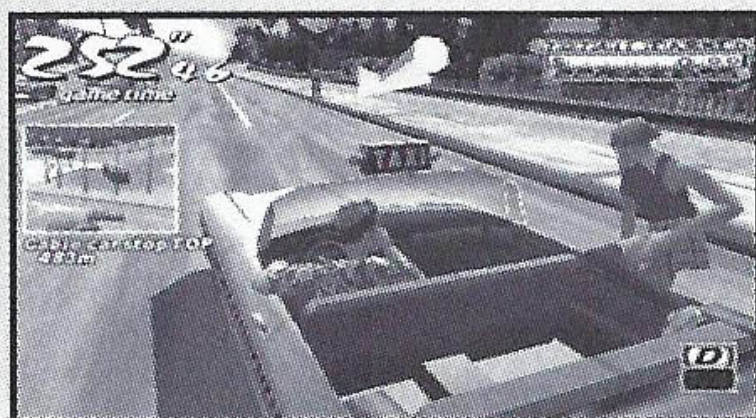

After selecting a play rule (facing page) of one of the course modes, the cabbie selection screen will be displayed.

Use the directional buttons $\leftarrow/\rightarrow$ to choose your cabbie and press the $\otimes$ button to select. If the counter reaches zero before you enter a selection, the currently displayed driver will automatically be selected.

2) PICK UP CUSTOMER

People with the “\$” icon over their heads are potential customers. To pick up a customer, you must stop the cab within the **stop zone** – the circular outline that surrounds the customer. The customer will automatically approach the cab when you make a complete stop.

NOTE: Game Time will continue to run while you are waiting for your customer to get into your cab.

3) DRIVE TO DESTINATION

Once the customer gets in the cab, a picture of the destination will be displayed briefly on the left side of the screen. Follow the **Directional Arrow** displayed over the customer's head to the destination within the time limit.

Provided you reach the destination in time, you'll be paid the base fare as well as any tips the customer rewards for all of the crazy driving techniques you pulled off.

GAME FLOW

4) DROP OFF

The stop zone of your destination will be highlighted in green. Your customer will automatically step out of the cab when you make a complete stop within the green stop zone. Once the customer exits the cab, the base fare and tips will be paid and added to your **Total Earned Fare** (P.6).

5) RESULTS

When the Game Time expires, the Results Screen will be displayed with the following stats. If you earn a Class "S" license or better in a **PLAY BY ARCADE RULES**, the game ending and credits will play.

SAVE MENU (*Crazy Taxi™* only)

A menu with your player name will be displayed immediately after the Result Screen. To save your result, select a player name and press the **⊗** button. If you wish to save the result under a new name, select "**Register a new name**" and create your three letter player name.

CUSTOMERS

\$ ICON COLOR VARIATIONS

The different colors of each customer "\$" icon indicate the relative distance to the destination, while the size of the **stop zone** around the customer indicates the relative difficulty involved getting there.

CUSTOMERS WITH A NUMERIC ICON

For *Crazy Taxi™ 2*, you will find a group of customers with a numeric icon, indicating the number of passengers entering the cab at once. Each customer will have their own destination, so deliver them all within the given time to earn big money. If you fail to deliver everyone, the fare will not be paid.

TIME LIMIT

When you pick up a customer, a **Customer Time Limit** (P.6) will be displayed at the center of the screen. If you successfully deliver the customer before this time runs out, the amount of fare will be added to your **Total Earned Fare**. If time expires, the customer will jump out of the cab without paying.

CUSTOMER RATING & TIME BONUS

Customers will give you a rating relative to how much time is remaining on the Customer Time Limit. In **PLAY BY ARCADE RULES**, the faster you reach the destination, the more Time Bonus you will receive.

SPEEDY

Bonus: +5 sec.

NORMAL

Bonus: +2 sec.

SLOW

No Time Bonus

BAD

When you fail to take the customer to the destination.

GETTING PAID

The following are three types of earnings:

BASE FARE

The base fare is calculated according to the distance of the destination. It appears when you pick up a customer.

TIPS

Added onto the fare whenever you perform an awesome move or combo.

See below for details.

BONUS FARE

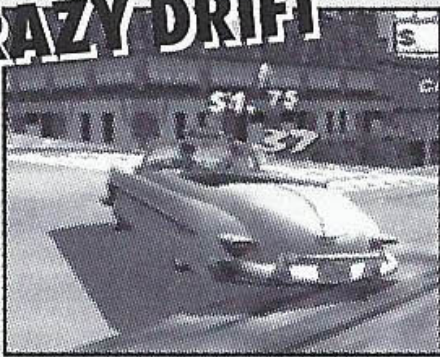

Awarded for time remaining on the Customer Time Limit.

See previous page for details.

TIPS & MOVES

If you perform a radical move that excites your customer, a tip will be added to the fare. The following moves will be sure to please any back seat driver. If you have more than one person, the tip is multiplied by the number of customers in the cab.

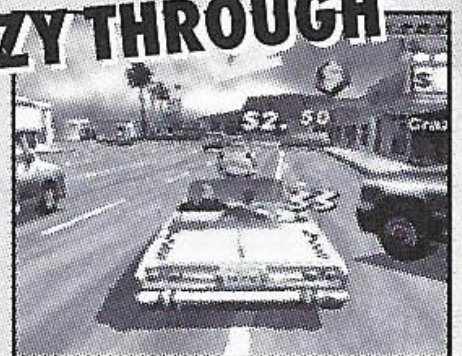

CRAZY DRIFT

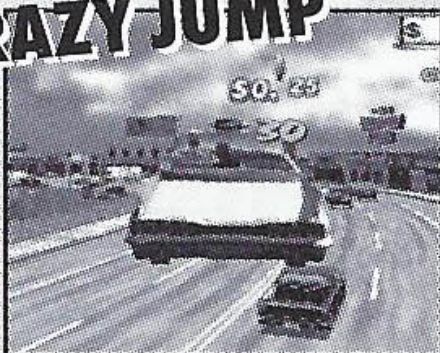

Drift your cab for a given amount of time.

Weave through traffic or jump over the other cars.

CRAZY THROUGH

CRAZY JUMP

Use jump ramps or Crazy Hops to get airborne for a given amount of time.

If you earn tips in succession without hitting other cars, they will be counted as a **combo**. The tip rate increases with each trick. Once you hit an object or car the combo counter will be reset to zero.

MULTIPLAYER

The city isn't big enough for two crazy cabbies, so decide which one of you is the crazier with the new two-player multiplayer mode made especially for this game. Select **MULTIPLAYER** from either the Mode Selection screen to start the hot one-on-one competition.

Once you've accessed the Multiplayer screen, highlight **SINGLE PSP™ SYSTEM** if you and your buddy will be sharing a PSP® system or **AD HOC** if both players have their own PSP® systems, each with a *Crazy Taxi™: Fare Wars* disc playing.

SINGLE PSP™ SYSTEM

Players will take turns playing the game, and whoever out-drives his/her opponent based on selected rules (see next page) is the winner.

Note that a **SINGLE PSP™ SYSTEM** game does not require any WLAN communication since the competition is played on a single PSP® system.

AD HOC

Players take turns or play simultaneously depending on the rules (see next page), and whoever has the better result at the end of the game will be declared the winner.

Note that an **AD HOC** game will use WLAN communication between two PSP® systems.

This title does not support certain characters used in the PSP™ system's Nickname. Replacement characters will be displayed.

PRE-GAME SET UP

To set up a Single PSP System game, simply select **TIME TRIAL** or **C-R-A-Z-Y** and start the competition.

For an Ad Hoc game, first select **CREATE GAME** or **JOIN GAME**. If you've created a game, select one of the available games (**TIME TRIAL**, **C-R-A-Z-Y** or **HEAD TO HEAD**) and accept a friend who joins your session. If you are joining a game hosted by a particular friend, please select the name (Nickname) of his/her PSP® system from the menu.

MULTIPLAYER

Multiplayer games can be played according to the following rules:

TIME TRIAL

Players must pick up customers and drive them to their final destination within the given time (two, four, or six minutes). Tips and fares are rewarded only when you reach their final destination. The player that earns the most money in the allotted time is the winner.

Note that both players play simultaneously with their own PSP® systems for an **AD HOC** game.

C-R-A-Z-Y

Players take turns competing on a pre-defined customer route. The two scores are directly compared and the loser of the round will earn a single letter of the selected word (e.g. the word "F-A-R-E"). Players will play multiple rounds, and the first player to complete the entire word loses the game.

INTERFERENCE

During **C-R-A-Z-Y** mode, the observing player can interfere with their opponent's game by hitting one of these three buttons during the Follow Car Mode:

L button Cause your opponent's cab to brake and slow down

← button Force your opponent's cab to veer towards the left

→ button Force your opponent's cab to veer towards the right

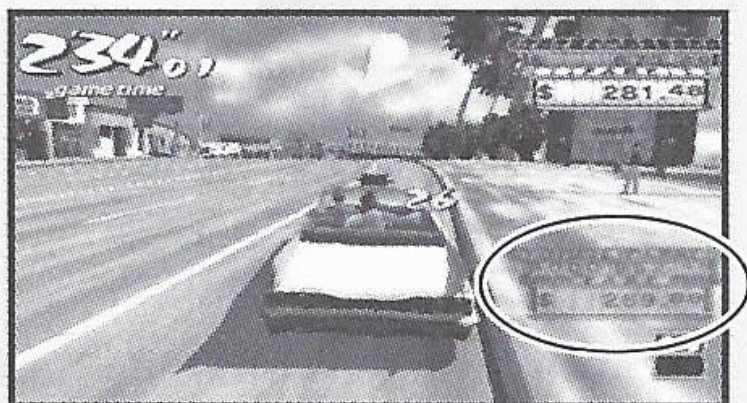

The number of times you can perform the above interferences are displayed on the bottom left portion of the screen. Each player starts out with one of each type of interference and will gain one additional interference each time they lose a round. Every three rounds both players will be awarded with additional interferences, up to a maximum of nine total interferences. Be sure to use them wisely.

HEAD TO HEAD

Players compete simultaneously on the same course, racing to pick up customers and bumping each other along the way. The player who earns more cash is the winner of the game so keep your eyes on your opponent's score while delivering your customers.

OPPONENT'S SCORE

The screen display items will be the same as the single player games with the addition of the opponent's score during a **HEAD TO HEAD** competition.

FINDING THE OTHER PLAYER

If you press the  button when you don't have any passengers on board during **HEAD TO HEAD** mode, a direction arrow temporarily appear at the top of the screen. This arrow points towards where the other player is and displays the distance between the two cabs in meters.

COLLISIONS & KNOCKING OUT CUSTOMERS

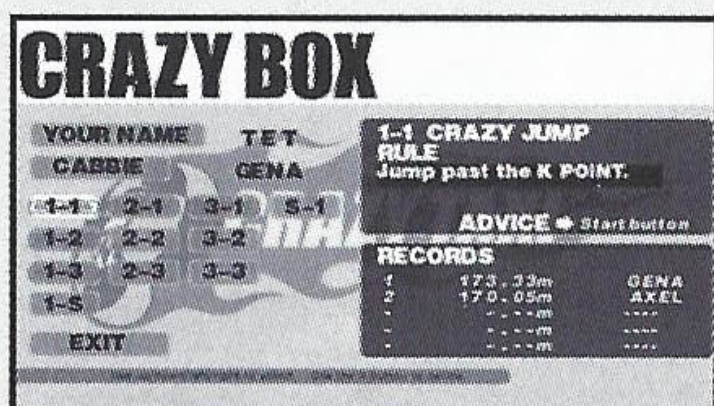

If one player rams another player's cab from the side or back, they can cause the other player to spin out and loses some of their tips.

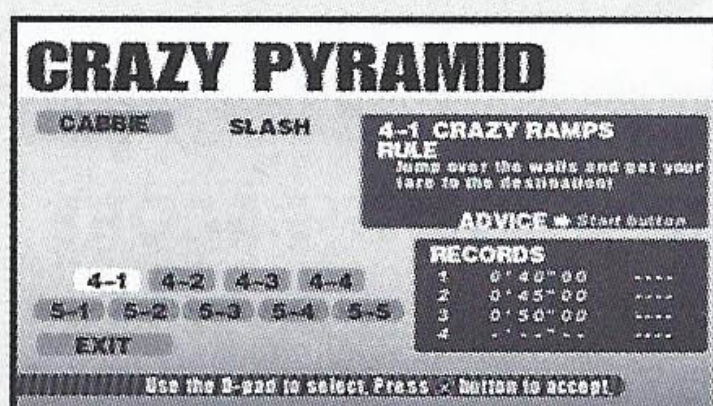

If one cab hits another cab with a passenger from behind with enough force, the hitter will be able to knock out the passenger from the hit cab. If you succeed, you'll see the passenger get angry with their cabbie and jump out.

Play with various mini-games of **CRAZY BOX** (in *Crazy Taxi™*) and **CRAZY PYRAMID** (in *Crazy Taxi™ 2*) to improve your crazy driving skills. Additional mini-games will be made available whenever the prerequisites are cleared.

PEGI ON LYHENNE SANOISTA PAN EUROPEAN GAME INFORMATION - YLEISEUROOPPALAINEN PELITIETO.

Se on yleiseurooppalainen tietokone- ja videopelien ikäluokitusjärjestelmä. Sen avulla kuluttajat, erityisesti lasten vanhemmat voivat varmistaa, etteivät alaikäiset peleissä kohtaa heidän ikäisilleen haitallisista aineistoa. On hyvä muistaa, että PEGI-luokitus kertoo pelin sopivuudesta eri ikäisille, ei sen laadusta tai vaikeudesta.

Kahdesta osasta koostuva PEGI-luokitus antaa vanhemmille ja lapsille pelejä ostaville henkilöille tietoa sopivan pelin valintaan tietynikäiselle pelaajalle. Ensimmäinen osa on ikärajaluokittelu: -

Toinen osa ovat pelin sisältöä kuvaavat kuvakkeet. Pelistä riippuen kuvakkeita voi olla useita. Pelin ikäraja kuvastaa tämän sisällön voimakkuutta. Nämä kuvakkeet ovat: -

VALMISTELU

Asenna PSP®-järjestelmä sen käyttöohjeen kuvaamalla tavalla. Käynnistä PSP®-järjestelmä, ja sen POWER-merkkivalo muuttuu vihreäksi. Näyttöön ilmestyy Home-valikko. Avaa levyaseman kansi painamalla OPEN-salpaa. Aseta **Crazy Taxi™: Fare Wars** -levy asemaan etikettipuoli kohti PSP®-järjestelmän takaosaa ja sulje levyaseman kansi huolellisesti.

Valitse Koti-valikosta -kuvake ja valitse sitten -kuvake. Näyttöön ilmestyy kuva ohjelmistosta. Valitse kuva ja paina -näppäintä käynnistääksesi sen latauksen.

HUOMAUTUS: Tässä ohjekirjassa oleva tieto on tarkistettu ennen sen painamista, mutta peliin on kuitenkin saatettu tehdä pieniä muutoksia tämän jälkeen. Kaikki ohjekirjan näyttöruutukuvat on otettu pelin englanninkielisestä versiosta. Joitain näyttöruutukuvia on saatettu ottaa keskeneräisistä kohtauksista, jotka saattavat erota lopullisista kohtauksista.

MEMORY STICK DUO™

Tallentaaksesi peliasetukset ja edistymisen aseta Memory Stick Duo™ -kortti PSP®-järjestelmän Memory Stick Duo™ -paikkaan. Voit ladata tallennetut pelitiedot samalta Memory Stick Duo™ -kortilta tai miltä tahansa muulta Memory Stick Duo™ -kortilta, jolla on aiemmin tallennettuja pelitietoja.

LANGATTOMAT (WLAN) OMINAISUDET

Langattomia (WLAN) toimintoja tukevat ohjelmistonimikkeet mahdollistavat tietojenvaihdon muiden PSP®-järjestelmien kanssa, tietojen latauksen ja muiden käyttäjien kanssa pelaamisen langattoman lähiverkkoyhteyden (WLAN) yli.

AD HOC -TILA

Ad Hoc -tila on langaton (WLAN) ominaisuus, joka mahdollistaa kahden tai useamman yksittäisen PSP®-järjestelmän välisen suoran tiedonvaihdon.

PELITULOSEN JA ASETUSTEN TALLENTAMINEN

Asetuksesi ja pelituloksesi **Crazy Taxi™ 2** -pelissä tallentuvat automaattisesti, kun palaat pelin Main Menu -päävalikkoon. Jos haluat tallentaa pelituloksesi **Crazy Taxi™** -pelissä, luo tai valitse pelaaja Result Screen (Tulokset) -näytön jälkeen, niin tuloksesi tallentuu. Kun pelituloksia tallennetaan, ruutuun ilmestyy tallennuksesta kertova viesti. Älä poista Memory Stick Duo™ -muistikorttia tai sammuta PSP®-järjestelmää, kun viesti on ruudussa.

MUSIIKIN KUUNTELU

Kytkemällä päälle Options (Asetukset) -valikossa olevan Custom Music Player (Omien kappaleiden soitin) -toiminnon voit kuunnella pelin aikana

Memory Stick Duo™ -muistikortille tallennettuja MP3-tiedostoja.

Peli tunnistaa sata kappaletta. Varmista, että kappaleet ovat Memory

Stick Duo™ -muistikortin kansiossa **\Music\Crazytaxi**.

HÄLSOVARNING

Spela alltid på ställen där det finns en bra belysning. Gör regelbundna pauser (en kvart varje timme) i spelandet. Undvik att spela när du är trött eller lider av sömnbrist. Vissa personer som är känsliga för blinkande eller flimrande ljus eller geometriska former och mönster kan lida av odiagnostiserad epilepsi och få epileptiska anfall när de tittar på tv eller spelar videospel. Om du är epileptiker bör du alltid rådfråga läkare innan du spelar videospel. Du bör även genast kontakta en läkare om du upplever något av följande symptom när du spelar: yrsel, synrubbingar, muskelryckningar, andra ofrivilliga rörelser, frånvaroattacker, svimningar, känsla av förvirring och/eller kramper.

ÅLDERSGRÄNSSYSTEMET PEGI (PAN EUROPEAN GAMES INFORMATION)

Åldersgränssystemet PEGI har som syfte att skydda minderåriga från spel som inte är lämpliga för deras åldersgrupp. Observera att det inte säger något om spelets svårighetsgrad.

PEGI består av två klassificeringar som hjälper föräldrar och andra som köper spel till barn att göra ett bra val som passar spelarens ålder. Den första delen är en serie åldersgränser:

Den andra delen består av symboler som beskriver spelets innehåll. Beroende på spelet kan antalet ikoner variera. Åldersgränsen ger en fingervisning om hur grovt innehållet är. Dessa symboler är:
